Work Experience

Tyke Technologies Private Limited, Gurgaon | Full Stack Developer | Mar'22 - Present

- Led the P2P investor flow, integrating with NBFCs to facilitate seamless operations.
- Worked on authorization and authentication module, used http cookies, JWT tokens and auth middlewares enhancing security. Got a chance to work with Redis and AWS Cognito service.
- Spearheaded the KYC flow, integrating third party vendors, resulting in a 50% reduction in onboarding time. Managed data storage using mongoDb and postgresQL ensuring secure and scalable infrastructure.
- Architected a microservice for Signing flow, integrating third party vendors, handling webhooks and using AWS Lambdas and Crons for callbacks, leading to 30% improvement process automation.
- Worked with escrow and in-app wallets and integrated payment gateways like juspay, tazapay from scratch.
- Built a custom HTML editor and PDF Previewer using open source libraries and React.
- Developed an internal admin dashboard using React and Nodejs, cutting down customer support response time by 20%, and providing real time data insights.

SurveySensum, Gurgaon | Full Stack Developer | Jul'21 - Mar'22

- Led the integration of Outlook Add In to embed surveys in emails using Microsoft's Open API, improving survey reach and visibility for 40% clients.
- Managed the Payments Module, integrating with Stripe using C# and Angular, and optimized the process to reduce payment failures by 10%.
- Developed complex client dashboards using Angular, providing actionable insights and enhancing user engagement.
- Worked on responsive survey collection tool, improving the user interface for complex dashboards and reducing survey creation time.

SurveySensum, Gurgaon | Full Stack Developer Intern | Dec'20 - Jul'21

- Integrated third party vendor and optimized data processing engine, cutting down processing time, enabling handling of large data sets in real time.
- Contributed to text analytics module, enhancing the system's capability to process large datasets quickly, improving response times.

Certification

Microsoft Certified Azure Fundamentals

Officially certified by microsoft for basic azure fundamentals AZ-900

Projects

MyPortfolio

Portfolio Website showcasing my skills, work experience and projects. [Link](#)

WcGo

Created custom wc tool using Golang.Used to count bytes, lines, words and characters from file and can also read from input stream. [Link](#)
